

## nocca<sup>®</sup>ADMIN

### THE CENTRAL SOFTWARE FOR CONTROLLING GUARANTIES CORRECT DATA

**Your personal control device, developed in partnership with specialists of the industry**

mocca.admin is the perfect tool for managing your business. All payment devices are fully integrated into mocca.admin: You get an exact account for cash, coffee, beverage and vending machines as well as for preorders. The software was developed by a consolidation of experts and is adjusted especially for the requirements of your industry.

#### FEATURES AND ADVANTAGES

quicker transactions  
easy to operate

constantly updated sales figures

clearly structured reporting

standardized interfaces

extensive administration of rights

transparent processes

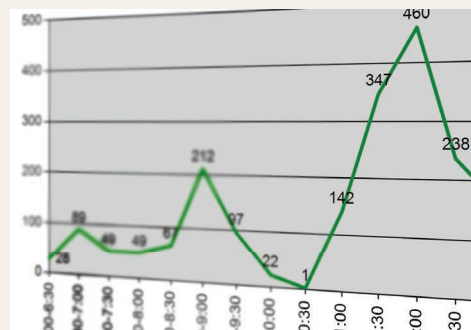

rapid reporting

integrated accounting module

#### How to optimize your sales

With mocca.admin you have a view on your data and evaluations within the push of one button.

You can identify trends better and quickly adjust to changes in customer requirements. This feature is essential for the success of your company in a dynamic environment.

#### Reports – quick and easy

The processing of data is carried out in the background and in real time. We developed a special process, so reports can be created quickly and reliably.

The intensive collaboration with leading universities of applied science implicates state-of-the-art technology.

#### Reduce your work – through automatic generated reports

If you are in charge of time-consuming reports for your company, done on a daily or weekly basis, then mocca is exactly the solution based on your requirements.

Your reports can be managed in the mocca.admin software. An initial adjustment is all that is needed to enable you to have specific reports on the needs and wants of your company. Furthermore, the reports can be sent automatically by Email with a defined text message. Simplification of administration work is the main objective, as well as control over periods of absence.

## moCCA<sup>®</sup> ADMIN

### Standardized export and import interfaces

If the master data or sales data should be transferred to other systems, moCCA.admin offers standard interfaces, which can be customized to your needs and wants individually.

### Extensive administration of rights

moCCA.admin offers individual user management. You decide whether a user is able to view or change all the data, or whether there should be constraints per individual user. For example HR managers should solely get access to the registered people, but no access to sales data. On the other hand the kitchen

staff should get access solely to menu plans and management of products. The finance department has access to specialised financial reports.

### Trust, but verify

moCCA.admin makes all sales and transaction data of your company transparent. You get the full overview and precise control of your different locations and employees.

### System requirements

- Windows XP or later
- 2048 MB RAM
- 100 MB free hard disk space
- Graphics card with min. 128MB memory
- Minimum screen resolution 1024x768px
