FEATURES AND ADVANTAGES:

- Individual layout
- Personalization
- Security
- Wallet Function
- Professional consulting
- Mifare
- Legic
- NFC
- HITAG
- Nedap
- HID

Do you need help choosing the right card?

We have more than ten years of experience and are specialized in card and token systems. Our products support Mifare, NFC Near Field Communication, Legic, Hitag, Nedap, ISO 14443A / B and many more. For selecting the right card, you give us your requirements - we will be happy to help you get the best price-performance ratio.

Personalized card and issuing

Do you want to print your logo, staff names or numbers on the card? We can help you choose the right printer or we can print the cards for you. For large quantities we have partner companies who guarantee the highest quality in offset printing. No matter what combination of pictures, names or barcodes are chosen, we can fulfill your order.

How safe are your cards?

When talking about the security of your applications, please consult for advice. We are experts in safety-critical applications and understand your pressure on margins. We find the ideal solution for you and will be your highly-qualified partner.

MOCCA® CARDS

Application examples:

The application of contactless smart cards is very diverse:

- Wallets
- Loyalty cards
- Tickets
- Identification
- Club passes

Passes and tickets for restaurants, retail industry, tourism and hotels are only a small selection of possible applications of chip cards.

Easy management of card data

Your customer data can be centrally managed in [mocca.admin](#). Add new cards and contacts, lock or unlock cards and rename users. All can be managed on a single page in [mocca.admin](#) - clear and easy to operate.

NFC Near Field Communication

Modern smartphones are supplied with an integrated NFC chip. This provides your mobile phone with a wallet functionality. You can save your vouchers, loyalty cards, movie tickets and your personal access authorization on your phone. NFC is multifunctional and intuitive to operate. Ventopay is already using NFC technology successfully. Together with our partner CDE GmbH and close cooperation with the NFC Research Lab in Hagenberg, we create solutions at the cutting edge of technology.

ABOUT THE COMPANY
