

nocca® GUEST

THE INTELLIGENT MACHINE FOR SALE, RETURN AND CHARGING OF GUEST CARDS

The mocca.guest is the machine, which delivers your guest cards, charges them and takes them back. The reliable self-service kiosk is the ideal supplement for businesses that want to reduce the administrative burden with guest cards.

FEATURES AND ADVANTAGES:

- Deposit management
- Credit card, debit or cash
- Reliable and safe
- Reduces administrative burden
- Easy to operate
- Accurate billing
- Offline-capability
- Flexible construction
- Mifare, Legic or HITAG

Reduce administration time

mocca.guest sells guest tickets with cash, debit and credit cards. The machine loads the electronic purse of guest and staff cards. Finally, mocca.guest takes back the guest card and pays off the balance - again with cash or debit and credit cards. You have a full payment cycle in which your customers can perform all tasks independently.

Maximum security and offline operation

mocca.guest consists of a steel case with a special seal. The software of the device is protected against unauthorized access and all transactions are stored in a secure database. mocca.guest works offline - even without a network connection business will continue uninterrupted.

Precise and individual reporting

With mocca.guest you have a perfect overview over all deposits and withdrawals. Different types of payment such as coins, cash, debit and credit cards are clearly displayed. The accounting procedure offers an exceptional degree of accuracy.

MOCCA[®] GUEST

Optimized navigation

The navigation of mocca.guest is optimized for both, employees and guests. The machine automatically detects which type of card has been inserted and therefore selects the appropriate menu. Your customers get the fastest way to recharge their cards.
