4.500 cash points transact them
22.000 person-days have already been invested in development

The full-range provider of solutions in the field of checkout and billing systems for communal catering

Put your trust in a system that is already in use at numerous well-known companies. The intuitive operation of all components and the use of cashless payment enable enormous savings in time and effort when hosting your employees and guests. This shortens the queues and extends the recovery phases for employees.

Comprehensive reporting minimizes your administrative effort and the required data is available in the shortest possible time. You can concentrate again on what is important to you - the well-being of your guests.

With the new, digital customer loyalty concept, which is seamlessly integrated into the mocca® payment and billing system, you can also increase your customer loyalty.

Company profile

ventopay gmbh was founded in 2012 and is the innovation and technology leader for cashless checkout, payment and ordering systems in communal catering. ventopay guarantees fast payment, simple billing and high customer loyalty.

The solutions are developed together with customers and are individually adapted to the specific needs of stadiums, arenas, caterers, company restaurants, hospitals, univer-

sities, schools and machine operators. Numerous leading companies from Germany, Austria and Switzerland already use the cashless payment systems from ventopay.

As a full-service provider, ventopay offers everything from a single source, from consulting, project management and implementation to training, support and maintenance.

ventopay
CUSTOMIZED PAYMENT SYSTEMS

mocca® system overview

POS software mocca.touch

The mocca.touch POS software from ventopay can be operated with cash, cashless or in a mixed version.

POS app mocca.touch.mobile

A powerful POS software with which you are not tied to a fixed POS, but are flexible in terms of location.

Ordering system mocca.order

The ordering system impresses with its very simple operation, innovative features and modern design - for PC, tablet and smartphone.

POS cash register mocca.pos

ventopay offers different models of POS cash registers and is happy to support you in choosing your individual cash register system.

Tablet cash register mocca.mobile

The mocca.mobile tablet POS system is particularly impressive due to its flexibility in use and robustness.

nocca[®] system overview

Customer app mocca.loyalty app

The mocca.loyalty app offers you the excellent opportunity to communicate directly and intuitively with your customers.

Website mocca.loyalty website

The website has all the functions of the mocca.loyalty app and enables your customers to access information from anywhere.

Bonus program mocca.loyalty

With mocca.loyalty, your guests can look forward to bonus points and rewards, you benefit from strong customer loyalty and more sales.

Machine module mocca.vend

The vending machine modules mocca.vend support all common machines such as coffee, drinks, vending and deposit machines.

Guest card machine mocca.guest

The guest card machine is ideal for a cashless payment option, as it takes care of all the handling of the guest cards for you.

Moneyloader mocca.value

When using cashless payment with chip cards, you can top up these with credit at the mocca.value.

Recognition mocca.foodrecognition

With the AI-supported solution, menus and drinks are recorded by camera and booked fully automatically into the cash register system.

Self-ordering mocca.production.info

Self-ordering modernizes and accelerates the ordering and distribution processes in the company restaurant with a self-service system.

Infoscreen mocca.digitalsignage

With the user-friendly info screen for customer information, you provide your guests with relevant information transparently.

Refrigerator mocca.order&collect

Your guests pre-order food via their own app or website, pay directly there and collect the goods from the refrigerator contactlessly.

Credit display system mocca.info+

mocca.info+ is a system for displaying the balance of mocca[®] payment cards, with which you can check the current balance at any time.

Wooden terminal mocca.terminal

The mocca.terminal in a modern design made of fine wood inspires not only with its appearance, but also with its diverse functions.

Management software mocca.admin

In this billing system, all operationally relevant data on products, people, prices and checkout points are managed.

Reporting software mocca.reporting+

The mocca.reporting+ reporting software not only saves you time, it also saves you trouble due to incorrect reports.

Interfaces mocca.interfaces

With mocca.interfaces ventopay offers standardized interfaces for the simplified management of master and turnover data.

Contactless chip cards mocca.cards

ventopay offers a wide range of media with contactless chips for identification and cashless payment.

Card reader mocca.reader

For contactless payment in a company restaurant, you need a card reader in addition to a cash register system.

Peripherals mocca.peripherals

In order to make the payment process in the company restaurant even more efficient, ventopay offers a range of peripheral devices.
